## Personal Profile

I'm a recent graduate with a degree in computer science and a passion for software development. I've always been fascinated by technology and how it can be used to solve real-world problems. During my studies, I gained experience in languages such as Java, HTML, SQL, CSS, Bootstrap etc. I also worked on several projects that involved developing websites and mobile apps. As a software developer, I believe in writing clean, efficient, and maintainable code. I enjoy working collaboratively with my team members to find innovative solutions to complex problems. I'm excited to continue learning and growing as a software developer and am eager to contribute to a dynamic and innovative team.
